- 3-Axis bracket makes 3D(Pan, Tilt, Horizontal) rotation
- Dual(Surface/Flush) Mount Type
- Dual Voltage (12V DC/ 24V AC)
- Dome Size: 100mm
- IP 67

The CM-CVDN305 is adaptable to almost any application. Mounting is accomplished with a dual bracket design allowing for flush or recess mounting in either ceilings or walls. There are also conduit punch outs on both the side and back of the camera.

The CM-CVDV305 incorporates a 360° Pan/Rotation and up to 140° for tilting. With the 3-Axis camera rotation, a 2.8~10mm vari-focal auto-iris lens and a service monitor out port along with pigtail, this is the easiest camera to install.

The CM-CVDN305 is IP67 rated meaning that it is dust proof and can withstand jets of water ensuring that the internal operation of the camera is not compromised resulting in fewer service calls.
